

Experiment - 1 - 2

Q. To Print the address in multiple lines (new line)

→ #include <stdio.h>

int main()

{

printf ("abhay gupta \n");

printf ("895 Main street \n");

printf ("dehradun, uttrakhand \n");

printf ("India \n");

return 0;

}

C Online Compiler

main.c

```
1 // Online C compiler to run C program online
2 #include <stdio.h>
3
4 int main() {
5     printf("abhay gupta \n");
6     printf("895 Main Street\n");
7     printf("dehradun, uttrakhand\n");
8     printf("india\n");
9     return 0;
10 }
```

Run

Output

abhay gupta
895 Main Street
dehradun, uttrakhand
india
